# SOURABH SUMAN

**Full-Stack .NET and Angular Developer**

Kota, Rajasthan, India | +91-7073672213 | sourabhsuman014@gmail.com
linkedin.com/in/sourabh-suman04

## PROFESSIONAL SUMMARY

Full-Stack Developer with experience developing enterprise web applications using C#, ASP.NET Core 8, Angular, SQL Server, Dapper and Entity Framework Core. Skilled in REST API development, stored procedures, responsive administration portals, role-based access control, document automation, reporting and cloud file management. Contributed to business applications for microfinance operations, insurance claims, loan origination, document management, learning management and HR workflows. Hands-on experience with AWS S3, payment integrations, SignalR, WebRTC and Excel/PDF processing.

## PROFESSIONAL EXPERIENCE

**Kamal Fincap Private Limited** **Apr 2025 – Present**
*Software Developer* *Kota, Rajasthan*

- Develop and maintain enterprise applications using ASP.NET Core 8 Web API, C#, Angular, SQL Server, Dapper and Entity Framework Core.
- Build REST APIs, service and repository layers, SQL stored procedures, data models and Angular modules for business workflows.
- Implement AWS S3 file-storage integrations and ImageSharp pipelines for image resizing, compression and document uploads.
- Develop PDF and Excel generation/import features using iText 7, QuestPDF, ClosedXML and EPPlus for loan documents, claims, HR letters and operational reports.
- Integrate payment and communication services including PhonePe, PayNearBy, FingPay, Firebase, SignalR and WebRTC in relevant modules.
- Implement JWT authentication, API authorization, role-based permissions, device/session controls, validations and audit-oriented workflows.
- Troubleshoot application and database issues, optimize queries and stored procedures, and deliver enhancements across multiple project modules.

**SKIT Jaipur** **Jul 2023 – Jul 2024**
*Java Full Stack Developer Intern* *Jaipur, Rajasthan*

- Contributed to full-stack application development using Java, Spring Boot, Angular and relational databases.
- Worked on migration of an OLTP application from a Java EE backend to Spring Boot and frontend updates using Angular.
- Developed and integrated REST APIs, connected UI components with backend services, and supported debugging and maintenance.

## PROJECT EXPERIENCE

**FieldMatePlus and FieldMatePlus Admin – Microfinance Operations**
*ASP.NET Core 8, C#, Angular 19, SQL Server, Dapper, EF Core 8, AWS S3, QuestPDF*

- Developed features for field collections, loan servicing, center visits, branch reconciliation, collection corrections and operational administration.
- Integrated PhonePe, PayNearBy and FingPay payment workflows, including dynamic QR/payment links, transaction-status checks and callback validation.
- Built PDF and Excel reporting workflows for cashbooks, branch closing, OD/NPA, fuel, write-off and collection reports.
- Implemented Supervisory Center Visit workflows and optimized field-uploaded images using ImageSharp before AWS S3 storage.
- Contributed to collection correction/reversal, center and collection transfers, device binding, session revocation, RBAC and multi-sheet Excel uploads.

**EnsurePortal and EnsureWeb – Insurance Claim Management**
*ASP.NET Core 8, C#, Angular 20, SQL Server, Dapper, ClosedXML, ImageSharp, AWS S3*

- Developed backend workflows for Death Claims and Hospitalization (HOSPI Cash) claims, including claim lists, details, evidence and investigation support.
- Implemented Dapper stored-procedure operations and multi-result retrieval for claim information, evidence references and discrepancy history.

- Built Excel claim ingestion using ClosedXML, safe parsing, column mapping, DataTables and SQL Server Table-Valued Parameters.
- Integrated AWS S3 evidence uploads and ImageSharp image processing; developed Angular claim-edit, proof-viewer, discrepancy and master-data screens.

**DocuMatePlus and TrackMate Admin – Loan Origination and Document Automation**
*ASP.NET Core 8, Angular 19/20, SQL Server, Dapper, EF Core 8, iText 7, ImageSharp, AWS S3, SignalR, WebRTC*

- Implemented automated loan-document generation by stamping customer and loan data onto PDF templates with iText 7 and packaging documents into ZIP downloads.
- Built a nine-stage Loan Against Property (LAP) application wizard with reactive forms, KYC uploads, document previews and maker-checker underwriting remarks.
- Developed backend workflows and stored-procedure integrations for LAP, loan application forms, notices, leads, household/family records and scheduled meetings.
- Integrated ImageSharp and AWS S3 for KYC document storage, and SignalR-based WebRTC signaling for remote house-visit verification.
- Contributed to IBL onboarding, household hierarchy, legal notice and Lok Adalat tracking, EMI calculations and Excel exports.

**KFPL SkillUP and HRMS – Learning and Employee Lifecycle Management**
*ASP.NET Core 8, Angular 19, SQL Server, EF Core 8, Dapper, AWS S3, EPPlus, iText 7, TinyMCE*

- Developed multi-step employee onboarding using Angular Reactive Forms for personal, family, education, experience, bank and KYC information.
- Built dynamic HR letter authoring and generation using TinyMCE templates, placeholder replacement, authorized signatures, PDF generation and ZIP packaging.
- Implemented role- and user-level permissions with read/write/delete controls, backend permission resolution and dynamic Angular navigation.
- Developed bulk Excel imports with EPPlus, validation, duplicate checks and row-level error logging; contributed to resignation, exit and Full & Final workflows.
- Enhanced HR dashboards, broadcast notifications, attendance workflows, AWS S3 file handling and API configuration.

## TECHNICAL SKILLS

**Languages:** C#, Java, JavaScript, TypeScript, SQL, HTML5, CSS3
**Backend:** ASP.NET Core 8 Web API, .NET Core, Spring Boot, REST APIs, Clean Architecture, Dapper, Entity Framework Core, ADO.NET
**Frontend:** Angular 19/20, RxJS, Reactive Forms, Bootstrap, Tailwind CSS
**Databases:** Microsoft SQL Server, MySQL, Stored Procedures, Table-Valued Parameters (TVPs), Query Optimization
**Cloud and Integrations:** AWS S3, PhonePe, PayNearBy, FingPay, Firebase, Zoom API, SignalR, WebRTC
**Documents and Reporting:** iText 7, QuestPDF, EPPlus, ClosedXML, ExcelJS, SheetJS, PDF/Excel automation
**Tools:** Git, GitHub, Postman, Visual Studio, VS Code, SQL Server Management Studio, Swagger

## EDUCATION

**Bachelor of Computer Applications (BCA)** 2021 – 2024
University of Rajasthan, Jaipur 68%
**Higher Secondary (Class XII)** 2021 90%
Shier Jyoti Sah Sec School, Kota
**Secondary (Class X)** 2019 72%
Kota, Rajasthan

## CERTIFICATION

**Programming Networking in Java – Udemy**
